CHALLENGES FACING THE ECD SECTOR

EDUCATION

- Need to furniture and equip all the centres {indoor/ outdoor}
 - Building of sites
 - Each location need to have its own centre for young children {Grade R }
- As they cannot travel long distance – Location to location
This could be done for the sake of Safety and security of the young children

HEALTH

- Must come to our centres for immunisation programmes
- To do awareness's campaign for TB & HIV/AIDS.
- To monitor the nutrition status in the centres and give help with the right menus

LOCAL GOVERNMENT

- Must give sites to centres who pay rentals
- Build the Pre-school centres as they have money that is allocated for ECD

- As these Pre-school are community based centres they need to be monitored by the District Municipality.

AGRICULTURE

- Need to do fencing in ECD sites, to supply centres with garden equipments as the children need fresh vegetables
- Also the 4H programme is not know well in our sector

SOCIAL DEVELOPMENT

- We ask for ECD transport so that the social workers can visit centres regularly and come to monitor those children getting social grants, as parents cannot pay school fees of R10 per month

SURMISSION ON BILL OF RIGHTS

SECTION 105 (6)

Children fill unsafe because people who rape them are given bail within a week and child and family feel un protected
We propose that rapist must not be given bail they must serve sentences
