1. Overview

Core functions and responsibilities

The core functions of the department are:

Awareness

Provide information that enables individuals and communities to access their socio-economic rights and responsibilities.

Early intervention

Provide a range of developmental and therapeutic programmes to vulnerable groups.

Statutory

Ensure compliance with protocols, statutory provisions and minimum standards.

Re-integration

Ensure the provision of a range of after-care services that enhance positive lifestyles and optimal social and organisational functioning.

In order to implement the above, a range of human, financial, information management and other infrastructural resources are required.

Vision

A self-reliant society.

Mission

To ensure the provision of a comprehensive network of social development services that enable and empower the poor, the vulnerable and those with special needs.

Main services

Line functions

Provide integrated developmental social welfare services to the poor and vulnerable in partnership with stakeholders and civil society organisations. This includes the sub-programmes: Substance abuse, prevention and rehabilitation, Care and Services to Older Persons, Crime Prevention and Support, Services to Persons with Disabilities, Child Care and Protection Services, Victim Empowerment, HIV and Aids, Social Relief, Care and Support Services to Families.

Provide sustainable development programmes which facilitate empowerment of communities, based on empirical research and demographic information: This includes the sub- programmes: Youth Development, Sustainable Livelihood, Institutional Capacity Building and Support, Research and Demography, Population Capacity Development and Advocacy.

Support functions

Provides for the strategic direction and the overall management and administration of the Department. This includes the Office of the Head of Department (including Communication and Marketing and Strategic management), financial management, supply chain and asset management, human resource management and development, legal services, knowledge management, monitoring and evaluation, risk management, facility and district management.

Provides for the decentralisation, management and administration of services at the District level within the department.

Demands and Changes in Services

National policy priorities continue to be key imperatives that will drive this department's work over the MTEF period. It is further anticipated that policy developments on a national level will inform and guide the department's efforts to implement key priorities.

The Child Justice Bill introduces significant changes to the way children in conflict with the law are managed within the criminal justice system. The purpose of this Bill is to establish a criminal justice process for children accused of committing offences which aims to protect the rights of children entrenched in the Constitution and provided for in international instruments. The Bill is under discussion at Parliament.

On 1 July 2007 certain sections of the **Children's Act 2005**, which do not need regulations to be operationalised were promulgated. Since then all sections of the Amendment Bill have been accepted, with the exception of the section dealing with corporal punishment that is still under review. The purpose of the Act is to monitor implementation of legislation, policies and international treaties, promote the rights, needs and best interests of children and ensure that these are given full consideration by private and public entities, individuals and organisations.

The **Older Persons Act no 13 of 2006** -The final draft of the Regulations of the Older Persons Act has been compiled by the National Department of Social Development and will be submitted to Parliament during the month of April/May 2008. The Regulations focuses on amongst others:

- Form and content of service level agreements between residents and residents' committee of a residential facility.
- Minimum norms and standards for admission of persons to residential facilities.
- Minimum norms and standards for community based care and support services to older persons.
- Measures to prevent and combat abuse of older persons.

The Older Persons Act will be implemented after approval of the Regulations and would take effect from April 2009.

A **family policy** has been finalised and is awaiting MINMEC approval. It seeks to promote a network of integrated services to protect, support and strengthen families to assist them to remain the cornerstone of the community and broader society.

Development of a **Retention Strategy for Social Workers**. A first draft of an implementation plan for the Western Cape has been developed based on the national social work retention strategy. This will be extensively consulted internally and externally. The department has upgraded salaries of social workers, including those employed by the NGOs.

Minimum Standards on Residential Facilities for Persons with Disabilities has also been finalised and approved by MINMEC. The minimum standards seek to describe what constitutes acceptable and adequate quality of care offered to people with disabilities in residential facilities thus promoting and protecting their rights.

A first draft of **Norms and Standards for the Integrated Service Delivery model** has been completed. The value of the document is that it recommends norms and standards for all services and for each of the four levels of the continuum. This work will be deepened in this financial year.

Service delivery environment and its challenges

Guided by the Provincial Growth and Development Strategy (PGDS), changes to key legislation and the drive to align with national policies, the Department has developed a 10-year strategy that will promote social development in a way that will contribute to improving the quality of life, human well-being and social cohesion. The following are some of the service delivery challenges that the Annual Performance Plan will address in order to strive towards the attainment of iKapa Elihlumayo:

Our new business model that is aligned to the national Integrated Service Delivery Model (ISDM) and PGDS organises our work into a matrix of 8 service delivery programmes across 4 levels of intervention. The challenge is internal integration and getting our service delivery partners to submit their business plans and deliver services according to this business model. We addressed this by extensive communication, marketing and information workshops. In line with the Provincial Growth and Development strategy our objective is to strengthen inter-governmental relations.

Ensuring value for money from our transfer funding to Non Profit Organisations (NPOs). The department is addressing this by decentralising its Monitoring and Evaluation component to district offices, developing capacity, shifting to outcomes based monitoring and commissioning external evaluations and impact assessments to service providers, entering into service delivery agreements that clearly spell out deliverables and compliance requirements.

The department will strengthen its efforts to work closely with other government departments and civil society, including faith based organisations, to reinforce morality in communities. As part of its contribution to the Premier's Siyabulela deliverable, the department will continue with the training of volunteers who will act as mentors and referral agents in communities. This opportunity affords unemployed youth the chance to develop skills that can enable them to obtain employment in a variety of sectors.

Increased prevalence of HIV/AIDS amongst young people. We are addressing this through the development of more effective communication messages, training and providing access to information that will change behaviour, and through expanding our base of youth mentors.

A number of social factors such as poverty, HIV/AIDS and violence contribute to the vulnerability of children in the province. A study conducted by HSRC in 2006 revealed that up to 80 per cent of child abuse and violence happens within the family context and are perpetrated by people that are familiar or known to children. The challenge for the department is how to radically change behaviours within the homes and communities wherein children reside so that there is a decline in the scourge of violence against children.

The Department is addressing this through an integrated provincial care and protection plan with all its government and NPO stakeholders, massification of Early Childhood Development (ECD), establishing safe houses in all of the over 300 wards in the province, training and capacity building of staff and safety parents and expansion of after school care facilities. The Department will continue to intensify its focus on ECD to tackle child poverty through various interventions including the Expanded Public Works Programme (EPWP), ECD enrichment centres and a strong collaboration with South African Social Security Agency (SASSA). Mushrooming of unregistered facilities (ECD, children's homes and substance abuse), will be addressed through greater public awareness and policy education; a massive ECD registration drive and an audit of ECD facilities.

The youth are challenged in many ways such as high rates of unemployment, leaving school prematurely and poverty. Even though the Accelerated and Shared Growth Initiative of South Africa (AsgiSA) recognises that young people should be at the centre of economic growth, they are still not integrated in the mainstream of economic growth and development. The Department will be addressing this from the perspective of a developmental approach to increase access to appropriate integrated youth development services.

Summary of Organisational Environment

The social development sector is faced with enormous social challenges resulting from systemic poverty, unemployment, inequality and the social ills associated with these phenomena. Mediating effectively within this domain requires dedicated and committed teams of social service professionals who are able to meet service delivery demands and fulfill the department's statutory obligations.

The shortage of practicing social work professionals has placed increased emphasis on the need for sector specific improvements within the social work arena. It is for this reason that the department has implemented phase one of the Social Work Retention Strategy in order to attract and recruit more social workers, social auxiliary workers, child and youth care workers, community home based carers and their support staff into the field, and by ensuring that social work and development is a profession of choice.

As a pro-active response to meeting these challenges, the department has realigned its service delivery and tested it within the current organisational structure, in order to determine what if any changes may be required. In line with the phased in approach for our district offices to become fully fledged cost centres, certain functions are in the process of being decentralised. Staff and systems are being put in place and the necessary capacity is being developed so that the cost centre can be fully functional by 2010.

Progress has been made at promoting greater equity in the distribution of resources and services throughout the province, in line with the department's transformation plan. This was achieved through a participatory process of re-directing available resources to areas of highest priority and greatest need. The transformation of the department's facilities has taken a step forward through a partnership with the Department of Correctional Services to establish a Level 4 facility for young people who have committed serious offences, as an alternative to imprisonment. Existing places of safety will be restructured to establish services in the rural areas that enable closer contact between the child and the family. Prevention and intervention services at district offices will be established to ensure that community-based services are rendered in order to empower and strengthen families.

Acts, Rules and Regulations

There are a vast number of acts that have an impact on work done by the Department. The following list provides the most important of these acts, conventions and accords:

- The Older Person's Act, 2006 (Act 13 of 2006)
- National Welfare Act, 1978 (Act 100 of 1978)
- Child Care Act, 1983 (Act 74 of 1983)
- Adoption Matters Amendment Act, 1998 (Act 56 of 1998)
- Probation Services Act, 1991 (Act 116 of 1991)
- Social Assistance Act, 1992 (Act 59 of 1992)
- Welfare Laws Amendment Act, 1997 (Act 106 of 1997)
- Public Service Act, 1994 (Act 103 of 1994)
- Public Finance Management Act, 1999 (Act 1 of 1999)
- Prevention and Treatment of Drug Dependency Act, 1992 (Act 20 of 1992)
- Non-profit Organisations Act, 1997 (Act 71 of 1997)
- National Development Agency Act, 1998 (Act 108 of 1998)
- Advisory Board on Social Development Act, 2001 (Act 3 of 2001)
- White Paper for Social Welfare (1997)
- White Paper Population Policy for South Africa (1998)

Budget Decisions

The Department's budget was informed by its departmental 10 year integrated strategy that encompasses the programmatic response to service delivery based on the National Service Delivery Model with its internationally accepted levels of development, namely Awareness and Prevention; Early Intervention; Statutory and Reintegration. This strategy is based on 8 key programmes in the areas of: Children and Families; Capacity building; Disabilities; HIV/Aids; Older Persons; Substance Abuse; Sustainable Livelihood and Youth.

2. Review 2007/08

The Department has implemented the first year of its 10 year strategy, which speaks to a programmatic response that is aligned to the Provincial Growth and Development Strategy and the Integrated Service Delivery Model. The Department is adopting a matrix approach to ensure more effective implementation of its interventions. Thus the 4 levels of intervention cut across and influence policy decisions regarding projects within specific programmes. The Department has consulted with its key stakeholders to develop 10 year strategies for each of its programmes. This is coupled to a change management process intended to create a common understanding of the way forward and agreement on the competencies needed to implement effectively at district office level. The process of decentralisation to our district offices will facilitate localised, integrated, relevant service delivery.

During the period under review the following has transpired:

Substance abuse Programme: The draft provincial strategy for substance abuse as well as the department's mini-drug master plan has been developed. A total of 29 local drug action committees are now fully functioning and 26 are in the process of establishment. A total of 87 youth have been reached through the Ke Moja programme –substance abuse prevention programme. The training of the 1 000 community mentors (Siyabulela) has been completed and 79 volunteers have been placed with the funded NPOs.

Older Persons Programme: A total of 18 awareness and media campaigns took place (newspapers and radio) regarding The Older Persons Act. The medium of Industrial theatre productions were used to focus on HIV/Aids, abuse and the rights of older persons. Nineteen (19) emergency beds at residential facilities for abused older persons have been established. Six (6) District Cultural challenge final events took place. A target of 10 000 older persons was met from 318 clubs/service centres, and 50 youth contract workers were employed to assist. The Final Provincial event took place on the 29th September 2007 celebrating International Older Persons day.

Persons with Disabilities Programme: Road shows were implemented to create awareness and mainstreaming around issues of disability. Other awareness and prevention projects included commemorating the International Day for persons with disabilities, information sharing workshops in partnership with the ECD sector and NGOs. A provincial consultative workshop was held to consult on three guiding documents for early intervention and prevention programmes for persons with disabilities. A Section 21 company has been established and registered to implement the co-operative protective workshop model with the objective of transforming protective workshops.

Children and Families programme: Currently the Department supports 70 309 children in ECD programmes, 45 860 of whom receives a subsidy. The department has hence met its target of 70 000 children for this financial year. Programmes and projects centered around public awareness and capacity building, the provision of a basket of supportive, protective and developmental services for children and families. The Child Care and Protection Plan for the Western Cape that provides the framework for implementation of integrated services for children has been launched in Paarl on 25 January 2008 after months of consultation and collaboration with communities, civil society formations and all national and provincial departments. In December 2007, the Mitchell's Plain One Stop Centre for abused women, funded by the United Nations, was opened.

HIV/Aids Programme: A total of 81 Service Level Agreements have been signed with organisations involved in Home Community Based Care (HCBC). 95 per cent were approved in the first quarter. Over 60 per cent of the funding went toward funding small and emerging HCBC projects thereby helping to ensure efficient service delivery at grassroots level. Carers that will be undergoing training have been identified and training has already commenced for 50 carers in the Vredendal area, 80 in the Cape Metro, 40 in George and 79 in the Caledon/Worcester and Paarl districts. 13 funded HCBC organisations have established support groups for both children and adults while 11 funded HCBC organisations have job creation projects. 51 HCBC organisations have a food relief scheme.

Sustainable Livelihood Programme: Over 400 have been or are in the process of finishing their training in the Women-Learn to Earn Programme. Some of them are in gainful employment whilst others are ready to start their own business and have been linked to the Department of Economic Development and Tourism's Red Door programme. In addition to this, 20 family members of these beneficiaries have been linked to another income generation programmes in order to strengthen household income. The hospitality industry related programme has been implemented in all eight (8) district offices in the Metro. Thus far, 54 beneficiaries have completed the programme and have been placed in various hotels in the Cape Metro. One of the successes of the department that was also shortlisted for the Premier's Excellence awards is the Delft Small Farmers project. This project has demonstrated its ability to sustain itself by securing contracts with major retailers. As a result they no longer require departmental funding.

Youth: EPWP programmes driven by the Department include Early Childhood Development, Home Community Based Care and youth learnerships. There are currently 240 ECD interns as well as 1 500 practitioners in learnerships through the EPWP programme. Other projects include placing trained youth in internships and increasing the number of youth participating in Home Community Based Care Programmes to 900. The current number of youth participating is 604. Youth focal points are now active at 11 of the 16 district offices. Skills development provided within the Youth Focal Units have linked more than 100 young people to job opportunities.

Institutional capacity and support: Individual organisational assessments were conducted for 60 per cent of all new & emerging NPOs. Five (5) new and emerging organisations received intensive institutional capacity building support and another 3 will be completed. Coaching programmes have been secured for 13 new and emerging organisations in order to assist them to put policies, systems and procedures in place.

3. Outlook for 2008/09

Through its Annual Performance Plan, the Department has renewed its commitment to ensure effective service delivery towards the goals and targets of iKapa Elihlumayo and to realise the Promise of the Age of Hope in order to deal satisfactorily with the socio-economic challenges facing it. The department will continue its constitutional mandate to protect, care and support the most vulnerable members of our communities, especially children, persons with disabilities, older persons and the poverty-stricken. In addition the department will continue to provide a comprehensive range of services aimed at developing youth and strengthening the family.

The Department's goals are aligned with international, national and provincial social development objectives, most notably the Provincial Growth and Development Strategy (PGDS). In this Annual Performance Plan, the department endeavours to act on this mandate and strengthen our intervention in the 21 priority areas across all our programmatic interventions with specific targeting of these areas.

It is critical that there is integrated service delivery to those that need us most while simultaneously addressing some of the root causes of inequality in reaffirming our commitment as government to redress poverty and inequality. (ANC Plan of Action 2008). To meet this challenge it is essential to build partnerships to co-develop innovative solutions for sustainable development, as is prescribed in strategic mandates such as the Provincial Growth and Development Strategy, the Social Capital Formation Strategy and AsgiSA. During the first year of implementation of the Provincial Social Capital Strategy, the focus was on youth. However, as the strategy has matured, it brought with it the need to extend the scope of social capital into all our interventions. The programmatic response adopted by the department in the 2007/08 financial year lends itself to mainstreaming the benefits of social capital in all our programmes thereby promoting social cohesion, and hence addressing one of the President's priorities.

A key focus area for 2008/09, as part of the awareness and prevention level, is that of ensuring access to information. By ensuring more effective access to information the Department is able to streamline the services it offers ensuring that the poor and most vulnerable gain access to appropriate services within the shortest period of time. By following the ISDM framework the department is able to reconfigure its services and activities for impact, and ensures coordination of services.

The department will strengthen and deepen its interventions through the following key deliverables:

- Strengthen monitoring and evaluation mechanisms to the NGO sector to ensure value for money through capacity building initiatives at district level and the review of monitoring tools used to measure service delivery performance

- Transform residential services for children at departmental places of safety for children and awaiting trial facilities through a focus on community based care and family reintegration and the building of a level 4 secure facility.

- Increase access to services and the equitable distribution of resources by establishing additional service points and targeting service delivery to geographic areas of greatest need and priority target groups.

- Expand the EPWP by increasing the number of ECD and HCBC practitioners receiving training.

- Strengthen initiatives to promote sustainable livelihoods by offering programmes aimed at skills enhancement, food security and income security.

- Strengthen prevention, treatment and after care services with regard to substance abuse by expanding community based treatment, youth and school awareness programmes and building two new inpatient treatment centres.

- Strengthen families through prevention, early intervention, protection and after care services for the vulnerable and those with special needs (ECD; children and families; older persons; persons with disabilities; victims; gender; persons infected and affected by HIV/Aids).

- Implementation of key policy and legislative mandates (example the Children's Act, Child Justice Bill and Drug Master Plan) through public awareness and capacity building

The department will continue to deliver services in a manner that reflects the ethos and principles of Batho Pele. All this is done with the intention to deliver a better quality of service to its beneficiaries. The department has introduced an internal appraisal system that seeks to improve its performance and increase value for money by assessing organisational performance.

Summary of receipts:

Total receipts increase by R186.501 million or 20.69 per cent from R901.564 million in 2007/08 to R1.088 billion in 2008/09, continuing to increase over the 2008 MTEF to R1.261 billion in 2010/11.

Treasury funding:

Equitable share financing is the main contributor to departmental receipts. Funding from this source of revenue increases from R871.959 million in 2007/08 to R1.075 billion in 2008/09 and continues to increase over the MTEF to R1.260 billion in 2010/11.

Financing from the asset finance reserve increase by R10.915 million from R2.085 million in 2007/08 to R13 million in 2008/09.

Departmental receipts:

In contrast Departmental receipts decreases by 98.98 per cent from the revised estimate of R27.520 million in 2007/08 to R280 000 in 2008/09. This is mainly due to the provisions made for the Walvis Bay claim and social assistance grant debts in the 2007/08 financial year. The only source of departmental receipts over the 2007 MTEF is administrative fees, recorded under the sale of goods and services other than capital assets.

6. Programme description

Programme 1: Administration

Purpose: This programme captures the strategic management and support services at all levels of the department. i.e. Provincial, Regional, District and Facility/Institutional level. The programme consists of the following sub-programmes:

Analysis per sub-programme:

Sub-programme 1.1: Office of the MEC

Provides political and legislative interface between government, civil society and all other relevant stakeholders. Renders a secretarial support, administrative, public relations/communication; and parliamentary support in the Office of the Member of the Executive Council (MEC).

Sub-programme 1.2: Corporate Management Services

Provides for the strategic direction and the overall management and administration of the department.

To make limited provision and maintenance of accommodation needs.

Sub-programme 1.3: Regional/District Management

Provides for the decentralisation, management and administration of services at the district level within the department.

Policy developments:

None.

Changes: policy, structure, service establishment, etc. Geographic distribution of services:

One of the department's key deliverables for this financial year (2008/09) will be the strengthening of its monitoring and evaluation mechanisms to the NGO sector to ensure value for money outcomes. It will also establish an internal monitoring and compliance function on an operational level. An audit of existing systems for compliance and alignment to the programmatic approach will be conducted. Further consolidation of management information, actual location of own and funded services, determining the actual spread of resources, will largely assist in the redistribution of resources internally. The maintenance of Cost Centres and local offices to ensure access in 2008/09 will largely assist in determining geographic distribution of services. Opportunities for accommodation will be explored in the process together with SASSA.

Expenditure trends analysis:

The reduction in expenditure from R166.019 million in 2007/08 to R153.836 million in 2008/09 is mainly as a result of the Walvis Bay claim and provision for the social assistance grant debt. This allocation for the Administration programme increases over the MTEF to the amount of R177.778 million in 2010/11 mainly due to the implementation of the cost center model.

Programme 2: Social Welfare Services

Purpose: Provides integrated developmental social welfare services to the poor and vulnerable in partnership with stakeholders and civil society organisations.

Analysis per sub-programme:

Sub-programme 2.1: Administration

Overall direct management and support to the programme

Sub-programme 2.2: Substance Abuse, Prevention and Rehabilitation

Design and implement integrated services for substance abuse, prevention, treatment and rehabilitation.

Sub-programme 2.3: Care and Services to Older Persons

Design and implement integrated services for the care, support and protection of older persons.

Sub-programme 2.4: Crime Prevention and Support

Develop and implement social crime prevention programmes and provide probation services targeting children, youth and adult offenders and victims in the criminal justice process

Sub-programme 2.5: Services to the Persons with Disabilities

Design and implement integrated programmes and provide services that facilitate the promotion of the well-being and the socio economic empowerment of persons with disabilities.

Sub-programme 2.6: Child Care and Protection Services

Design and implement integrated programmes and services that provide for the development, care and protection of the rights of children.

Sub-programme 2.7: Victim Empowerment

Design and implement integrated programmes and services to support, care and empower victims of violence and crime in particular women and children.

Sub-programme 2.8: HIV and Aids

Design and implement integrated community based care programmes and services aimed at mitigating the social and economic impact of HIV and Aids.

Sub-programme 2.9: Social Relief

To respond to emergency needs identified in communities affected by disasters not declared, and or any other social condition resulting in undue hardship.

Sub-programme 2.10: Care and Support Services to Families

Programmes and services to promote functional families and to prevent vulnerability in families.

Policy developments:

The Child Justice Bill introduces significant changes to the way children in conflict with the law are managed within the criminal justice system. The Bill is under discussion at Parliament.

On 1 July 2007 certain sections of the **Children's Act 2005**, which do not need regulations to be operationalised were promulgated. Since then all sections of the Amendment Bill have been accepted, with the exception of the section dealing with corporal punishment that is still under review.

The **Older Persons Act no 13 of 2006** -The final draft of the Regulations of the Older Persons Act has been compiled by the National Department of Social Development and will be submitted to Parliament during the month of April/May 2008. The Older Persons Act will be implemented after approval of the Regulations and would take effect from April 2009.

A **family policy** has been finalised and is awaiting MINMEC approval. It seeks to promote a network of integrated services to protect, support and strengthen families to assist them to remain the cornerstone of the community and broader society.

Development of a **Retention Strategy for Social Workers**. A first draft of an implementation plan for the Western Cape has been developed based on the national social work retention strategy. The department has upgraded salaries of social workers, including those employed by the NGOs.

Minimum Standards on Residential Facilities for Persons with Disabilities has also been finalised and approved by MINMEC.

Managing policy implications

These policy instruments underpin the department's core business. Given resource constraints, the department can progressively realise these statutory obligations.

The department will progressively realise these obligations through the following measures:

- Training and capacity building of NGO partners and service providers

- Community consultation and education programmes to popularise the policies and raise awareness of their implications

- Develop indicators

- Phased implementation of the national costing model

Changes: policy, structure, service establishment, etc. Geographic distribution of services:

In further strengthening the department's service delivery, aligned to its Integrated Service Delivery Model, the enhancement of its partnerships with the NGO sector, as well as outcome-based monitoring and evaluation, decision making with regard to district based resource allocation and –management will be devolved during the course of this year.

The implementation of the Occupational Specific Dispensation for Social Service Professionals and the regarding of the community development cadre will have an impact on the human capital strategy of the department.

It is envisaged that the agency service regarding the placement of children in need of care and its associated costs (place of safety and escort fees), currently rendered by the Department of Justice, will be terminated most probably within this MTEF period. A feasibility study is in process.

The systematic takeover of the Child and Youth centres, currently managed by the Department of Education, prescribed by the Child Care Act, during this MTEF period.

Expenditure trends analysis:

The increase in the allocation of this programme is mainly due to the provisions made for increases in funding levels to NPOs to comply with National funding norms. Other increases relate to the expansion of services, in particular ECD.

Programme 3: Development and research

Purpose: Provide sustainable development programmes, which facilitate empowerment of communities, based on empirical research and demographic information.

Analysis per sub-programme:

Sub-programme 3.1: Administration

Overall direct management and support to this programme.

Sub-programme 3.2: Youth Development

Design and implement integrated social programmes that facilitate the empowerment and development of the youth.

Sub-programme 3.3: Sustainable Livelihood

Design and implement integrated development programmes that facilitate empowerment of communities towards sustainable livelihood.

Sub-programme 3.4: Institutional Capacity Building and Support

To facilitate the development of institutional capacity for Non-Profit Organisations and other emerging organisations.

Sub-programme 3.5: Research and Demography

To facilitate, conduct and manage population development and social development research, in support of policy and programme development, both for the implementation of the national Population Policy and other programmes of the Department of Social Development.

Sub-programme 3.6: Population Capacity Development and Advocacy

To design and implement capacity building programmes within the social development sector and other government departments in order to integrate population development policies and trends into the planning of services.

Policy developments:

A first draft of **Norms and Standards for the Integrated Service Delivery model** has been completed. The value of the document is that it recommends norms and standards for all services and for each of the four levels of the continuum.

Managing policy implications

These policy instruments underpin the department's core business. Given resource constraints, the department can progressively realise these statutory obligations.

The department will progressively realise these obligations through the following measures:

Training and capacity building of NGO partners and service providers

Community consultation and education programmes to popularise the policies and raise awareness of their implications

Develop indicators

Phased implementation of the national costing model

Changes: policy, structure, service establishment, etc. Geographic distribution of services:

The envisaged transfer of the establishment and management of the Multi- Purpose Community Centre (MPCC) programme to the Department of the Premier.

Expenditure trends analysis:

The increase in allocation for this programme is mainly based on inflation and expansion of programmes.
